cannot start, error: 0x8035000D. Any Ideas? Took me a while to find this in the PAF Deployment Blog. You need to download the following files: FILES SDP_UA_INSTALL.dll SLT.dll SLT_20_10_3.dll Backup copy of dongle.inf and dongle.inf.old files. After you have installed the dongle.inf files. SLT.dll will provide the UI functionality (without it the PAF will not work). PAF errors can be caused by 2 or more issues. Some or all of these settings may be needed for a PAF deployment to function as expected.
